PROFILE

Dedicated and detail-oriented BCA graduate with a strong foundation in web development and design. Proficient in HTML, CSS, JavaScript, and responsive web design principles. Passionate about creating user-friendly websites and eager to apply my skills to real-world projects. Quick learner with a collaborative mindset, ready to contribute to innovative development teams.

PROJECT

FRONTEND PROJECT

PROJECT: BORO BAZAR SHOPPING SITE

Technologies Used: HTML5, CSS3, JavaScript, React.js

Project Overview:

Boro Bazar is a modern and responsive e-commerce website built using React.js. It provides users with a seamless shopping experience, featuring a stylish UI, intuitive navigation, and dynamic interactions. This project focuses only on the frontend, utilizing mock data or API calls for product listings and user interactions.

BACKEND PROJECT

PROJECT: SECURE USER MANAGEMENT SYSTEM

Technologies Used: Node.js, Express.js, MongoDB, JWT, Bcrypt, Mongoose.

Project Overview:

Developed a secure User Authentication and Authorization System using JWT (JSON Web Token) in a RESTful API with Node.js, Express, and MongoDB. The system allows users to register, login, and manage their data while ensuring proper access control based on roles (e.g., admin, user).

COURSE COMPLETION:

I successfully completed a Full Stack Web Development course at Innovative Technologies, Chennai. This program equipped me with skills in frontend and backend development, database management, and deployment technologies.
